PROFESSIONAL SUMMARY

Results-driven developer with strong experience in backend and database management. Demonstrated ability to deliver impactful solutions that enhance operational efficiency and user experience. Seeking a challenging role to contribute to a collaborative, innovative team.

SKILLS

- **Backend Development:** TypeScript, Node.js, Express.js, Next.js, ASP.NET Core MVC, ASP.NET Core API
- **Database Management:** SQL Server, MySQL, MongoDB, Neon (Serverless PostgreSQL)
- **Version Control & Collaboration:** Git, GitHub, Azure DevOps (Project Setup, Branching, Pull Requests, CI/CD Pipelines)
- **Authentication & APIs:** RESTful APIs, Lucia, Next Auth, JWT, Postman
- **Frontend Development:** HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, jQuery
- **Google Workspace:** Docs, Sheets, Slides
- **Media Management:** Cloudinary
- **ORMs & Query Builders:** Prisma, Drizzle ORM, Entity Framework Core (Code First & Database First)

EDUCATION

Bachelor of Science in Information Technology   **Jun 2019 - Sep 2024**

Technological Institute of the Philippines - Manila

  Notable Achievements: Cum Laude; Participant - APPCON 2023

Senior High School - ICT   **Jun 2017 - Mar 2019**

Polytechnic University of the Philippines

  Notable Achievements: With Honors Graduate

WORK EXPERIENCE

Packaged App Development Associate

Accenture │ Nov 2024 – Present

- Successfully completed the Avanade FY25.02 Application Development Bootcamp, gaining expertise in SQL Server, ASP.NET Core Web App MVC, ASP.NET Core Web App, C#, and Entity Framework Core.
- Developed and optimized backend solutions using ASP.NET Core Web App MVC and Web API, implementing both Code First and Database First approaches.
- Created and deployed RESTful APIs with ASP.NET Core Web API, ensuring secure and efficient data exchange.
- Worked with SQL Server Management Studio (SSMS) for database creation, management, and optimization.
- Integrated frontend technologies, including HTML, CSS, JavaScript, and jQuery, for full-stack development.
- Acquired DevOps skills, including project setup, branch management, pull requests, and CI/CD pipeline automation.
- Deployed applications and managed services in Azure, including storage accounts, blob storage, and secure vaults.
- Completed Azure Integration Upskilling, covering API Management, Service Bus, Azure Functions, and Logic Apps for enterprise-level integration.

Backend Developer (Freelance)

Self-Employed │ Aug 2024 – October 2024

- Developed web applications with Next.js, PostgreSQL, Drizzle, and TypeScript.
- Integrated secure authentication using Lucia, enhancing data integrity.
- Utilized serverless PostgreSQL on Neon for optimized performance.
- Managed media assets with Cloudinary for efficient storage and delivery of various file types.

Full Stack Web Developer Intern

Linoflap Technology Philippines Inc. │ Feb 2024 – Jun 2024

- Led development of a marine and cargo management platform, enhancing user experience with efficient backend and API endpoints.
- Utilized Next.js, Prisma, Drizzle, Neon (serverless PostgreSQL), Next Auth, and Lucia for seamless integration between frontend and backend.
- Managed media assets with Cloudinary for efficient storage and delivery of various file types.

PROJECTS

Clearance Processing System

Final AppDev Bootcamp project developed with ASP.NET Core MVC and API, deployed on Azure for clearance request management.

Capstone - EcoCycle: Streamlining Sustainable Technology Donations through an Efficient WebBased Platform

A platform for computer parts donation, designed to promote e-waste reduction. Built with Node.js, Express, Prisma, and MongoDB to facilitate donation tracking, geolocation for drop-offs, and an analytics dashboard.

Marine Management System

A comprehensive system for the marine industry, integrating Neon (serverless PostgreSQL), Drizzle ORM, and Lucia for secure user authentication and database management.

Express-Socket.IO Chat Application

A real-time web application that enables users to join chat rooms and send messages instantly, showcasing expertise in real-time communication using Express.js and Socket.IO.
